Timber Creek Park

Timber Creek is a 12 residential lot development that is located just west of Fourmile Creek, in the northern part of Alleman. The developers designated a 3-acre lot as park space to serve this neighborhood immediately west of the creek.

During the goal setting process, a list of desired park programming was generated and community gathering spaces were a top priority.

The design concept includes walking paths, a play space, an amphitheater with seating and a stage, a public restroom and shelter, and a 7v7, U9 and U10 soccer field.

Careful thought was given to what programming is feasible within the floodplain of Fourmile Creek, due to the park's proximity and expected grade changes by the developer.

Playground Details

Typical play area, equipment suitable for ages 2 to 5 and 5 to 12.

(Left) Available color selection for play equipment.

Examples of specific play equipment, (Left) Play Booster, (Right) Play Shaper.
