

Coon Rapids Main Street Streetscape

Main Street's aging infrastructure is hindering pedestrian experiences throughout downtown. Updating Main Street between 6th and 4th Street with bump-outs, street trees, stormwater outlets, lighting, site furnishings, widened sidewalks, optional permeable pavement for the parking area will help create a safer, more enjoyable downtown experience.

Though the concept is focused on these blocks of Main Street, the design can be adopted to continue ADA pedestrian access and to remediate existing issues in other areas of Main Street; including Thomas Rest Heaven, City Hall, and the Public Library.
