C Intersection and Plaza Enhancements

D Town Square Street Enhancements

Concept Plan Overview

The committee was pragmatic in creating goals on which they could build a strong foundation and implement through phasing based on community size and funding available.

The committee gathered additional feedback during a workshop at the Glenwood Area Farmers Market where many individuals from the community commented on pedestrian connections, style of pedestrian amenities, style and color themes for way-finding signage, and style for entrance sign enhancements. Workshop attendees also participated in an activity to layout their preferred elements for gathering spaces. The design team created a digital survey for distribution online, soliciting several additional responses pertaining to the design features listed above.

The concept headings to the left were created to reflect these major themes as expressed throughout the project priority-setting process. The committee prioritized project areas based on the What, Where, & Why findings and focused on projects that achieved goals from multiple themes. The images below each concept heading are examples of one element from each focus area. The map shows the location of each of these concept designs. Lastly, the major themes are shown below with icons.

Themes identified by the committee include:

-  Pedestrian Amenities
-  Gathering Spaces
-  Safety and Accessibility
-  Way-Finding
