# How Often People Visit Parks

How Often Did You Visit a Park During the Past Year? (169 responses)

Survey participants were asked how often they visited a park during the past year. Ninety-eight percent of respondents answered this question. Of those people, more than 87% indicated that they had visited a park. More than 34% visited a park less than once a month, while 23.1% visited a park monthly. Just over 18% of survey participants stated that they visited a park weekly.

# Where They Go

Of the 169 people who answered this question, 138 identified which parks they visited. The table below shows the frequency that each park was mentioned, and the map shows the location.

	Park Name	Number of Respondents
1	Beed's Lake State Park	60
2	Harriman Park	56
3	Progress Park	36
4	Band Shell Park	30
5	East Park	14
6	Maynes Grove County Park	12
7	Others	21

# Hampton
