

Map Source: Iowa Department of Natural Resources, "Natural Resources Geographic Information Systems Library," accessed October 2015, <http://www.igsb.uiowa.edu/nrgislib/>. Route data derived from the 2016 Designing Livable Communities survey conducted by Iowa State University.

How Often People Walk

How Often Did You Walk During the Past Year? (129 responses)

Survey participants were asked how often they walked during the past year. More than 95% of respondents answered this question. Of those people, more than 76% indicated that they walked. The percentages of people who walk at least three times per week, weekly, monthly, and less than once a month are similar at more than 16% each. More than 11% of survey participants walked daily.

Where They Go

This map shows the walking routes identified by 91 survey respondents. The frequency that the routes are used is depicted by their thickness, with most frequently used routes being the thickest. Walking routes include nearly all of Kalona's streets. Most of the survey participants walk north of Highway 22, primarily on H and J Avenues, and 3rd, 4th, 5th, 6th, 7th, 10th and 11th Streets. Some people walk in the cemetery. South of Highway 22, people walk on the city streets and in the park. Some people walk along Highways 22 and 1, as well as Nutmeg and Maple Avenues both north and south of town.
