Meeting Summary:

Meeting began with introductions of the Design Team and Steering Committee members. Then Dustin reviewed the goals for the meeting and laid out the agenda. First the committee and design staff viewed the survey video provided by Iowa State University. Next the group was split into two smaller teams of 5. Each team was then set loose on a group of boards. The boards were split up between those that corresponded to the transportation assets and barriers focus groups and those with information from the survey data. After around 20 minutes the two groups switched. At the end of this exercise the group came together briefly to share ideas or thoughts gleaned from the day. To close the meeting Dustin reminded the group of the May 19th date for the Goal Setting meeting.
