

Actives walk and run regularly on the trails and streets for recreational/sports training and getting around town. They feel constrained by poor sidewalks and a lack of connections around town.

The major modes of transportation for older adults are walking, biking, and driving. They appreciate the convenience of being able to walk along Broadway Street.

Youth enjoy destinations in town such as Rustic Park and the trail. Their main modes of transportation are walking and biking. Lack of sidewalks in most parts of town restrict their movement around the city.

Parents drive, bike, and walk. They are concerned about the safety of their children. They identified the lack of sidewalks as a safety concern because youth are forced to walk and bike in the streets alongside the vehicles.

Steering committee members walk, drive, and bike. They pointed out the lack of sidewalks and lighting in some parts of town. They would like more lighting along Railroad Avenue.

Transportation Assets and Barriers
