

1 SAUNDERS TRAILHEAD CONCEPT PLAN
Plan view showing the proposed trailhead monument, connections, and amenities. The trailhead is planned as a pass-through space highlighting the beauty of its setting

Saunders Park Trailhead

Saunders Park is already a recreational beacon, with great amenities, historical artifacts, and proximity to both the aquatic center and the downtown district. This proposal promotes existing features while providing a designated entry point into the trail system.

Primary goals of improvements include:

- Establish entry point to Saunders trails, enrich Saunders identity as a recreational hub
- Minimize impact on existing trees and open lawn + tree character of the park

3 SAUNDERS TRAILHEAD, LOOKING SOUTHWEST
A trailhead kiosk and plantings serve as a hinge between parking and trails
