

Plan view showing the proposed trailhead monument, expanded parking, connections, and amenities

A trailhead kiosk is located at the edge of the parking lot, with bike racks and a pet waste station further down the trail. The existing shelter space is enriched with grills, a drinking/pet fountain, and a bike repair stand

(C) MID-SIZE ORNAMENTAL, TYP	(G) BIKE REPAIR STAND	(K) DRINKING FOUNTAIN W/ PET FOUNTAIN
(D) TRAILHEAD KIOSK	(H) DOG WASTE DISPOSAL STATION	

Prairie View Park Trailhead

Prairie View Park has tremendous potential as both a park and trail connector. Building on existing trail and shelter amenities, a trailhead kiosk, expanded parking, and pet and bike facilities draw visitors in while grills, seating, and shade make for a more comfortable stay.

Primary goals of improvements include:

- Link trails from north, east, and west and provide entry point to trail system
- Explore park/trail amenities in terms of cost, maintenance, and use
- Create an identity for Prairie View Park that sets it apart from other city parks
