

Actives

"The Old School Park is nice. They've got that little path around there."

"We don't have any curbs or gutters in town, and the roads are fairly rough. When we go out and RipStik, we go through a lot of wheels."

"I can bike around the whole place. It's fun to be around and it's peaceful."

"An ice skating rink would be fun."

"[There should be] some sort of bike path or walking path along the river."

Steering Committee

"Strand Park, they have tennis courts and basketball courts, but for kids and people that aren't able to drive, there's not really a good means to get out there."

"There's some trail opportunities...we could do some trail systems down the road from Rock Falls to Plymouth, and tied into Mason City. So there's a lot of neat opportunity. We just have so many beautiful areas."

"Tubing is big coming from Plymouth going south to Rock Falls every year...It is one of the biggest things that actually happens out of Plymouth in the summer."

"Most people are walking on the road because the sidewalks are so bad."

"There is no real good, safe spot for our buses to come in and there's no spot for the kids. They all hang out at the post office for cold weather."

Youth

"A lot of the sidewalks are often too bad to ride your bike."

"I think we should have a dock by Strand Park...A lot of people get in tubing there."

"When it comes to wildlife, there should be more flowers planted around [to] attract the bees."

"The B15 hill is a very good place for sledding."

"We don't really have a place—nowhere to play."

Older Adults

"I was doing a lot of walking last year and there are areas [on the sidewalks] where, if you are not paying attention, you trip."

"We have a nice walking path by the school."

"I would like to see development in the park—more development for people."

"If we had the paths, cross-country skiing could be a thing."

"There is really no place to ride a bike, unless you are on the main road. There are no bike trails."

Parents

"It would be nice...to have some bike paths for the kids. Because most of our sidewalks are either not there or they're just completely messed up. It's safer to ride on the road because they're going to have an accident on the sidewalk."

"We would often times swim in the river. You've got the beavers, the deer, the raccoons, the fish... [but] thanks to the 2008 floods...not many people swim in there anymore. It's gotten really bad."

"Usually what we do if we want scenery, we go down to the foot bridge or we go look at the cows at the Berdings' farm."

"It would be nice to have...a pool for the summertime."

"It would be nice to have benches... around the town besides just [at] the gazebo. Just to sit and relax."
