How Often People Visit Parks

How Often Did You Visit a Park During the Past Year? (163 responses)

Survey participants were asked how often they visited a park during the past year. All but two respondents answered this question. Of those people, almost 84% indicated that they had visited a park. More than 28% visited a park less than once a month, while 20.9% visited a park monthly. Just over 1% of survey participants stated that they visited a park daily.

Where They Go

Of the 163 people who answered this question, 125 identified which parks they visited. The table below shows the frequency that each park was mentioned, and the map shows the location. Many of the parks visited by respondents are located outside University Heights.

Park Name	Number of Respondents
1 Thornberry Off-leash Dog Park	54
2 Willow Creek	32
3 Tower Court Park	23
4 FW Kent County Park	12
5 Terry Trueblood Recreation Area	11
6 Others	45
